

PRESS RELEASE:

Yucca Removed from all Triple Crown Formulas

Robin Staloch | www.triplecrownfeed.com

Effective on July 1, 2009, yucca has been removed from all Triple Crown Feeds. Because the ingredients are printed on the bags, it will take time until yucca is removed from the printed portion of the bag as we use up existing bags and reprint new bags. If you are a member of any riding discipline that has banned the use of yucca, this is certification that it has been removed even though the yucca may still appear on the label of the product.
