

## Triple Crown Lite Formula

### A pelleted concentrate balancing the nutritional requirements of forage-only diets.

Triple Crown Lite is ideal for "easy keepers" - horses that maintain their weight on very little grain or just on grass and hay. Normally, a horse would have to eat five to six pounds of grain to derive a sufficient amount and a proper balance of vitamins and minerals. This is especially true of growing horses, broodmares, stallions and working horses. Triple Crown Lite is so heavily fortified, you can feed a horse as few as two pounds per day. This formula is also ideal for ponies and miniature horses.

### Guaranteed Analysis

Net Wt. 50 LBS (22.7kg)

Crude Protein (min.)	12.00%	Copper (min.)	130 ppm
Lysine (min.)	0.60%	Vitamin A (min.)	11,000 IU/lb
Methionine (min.)	0.15%	Vitamin D (min.)	2,000 IU/lb
Threonine (min.)	0.70%	Vitamin E (min.)	305 IU/lb
Crude Fat (min.)	3.00%	Ascorbic Acid (min.)	80 mg/lb
Crude Fiber (max.)	20.00%	Biotin (min.)	0.40 mg/lb
Calcium (min.)	2.00%	Lactobacillus Acidophilus	908 million CFU/lb
Calcium (max.)	2.50%	Fermentation Product (min.)	
Phosphorus (min.)	1.00%	Saccharomyces Cerevisiae	1816 million CFU/lb
Magnesium (min.)	0.50%	Yeast Culture (min.)	
Iron (min.)	515 ppm	Cellulase (Trichoderma Longibrachiatum	170 CMC-ase Units/lb
Potassium (min.)	1.00%	Fermentation Extract) (min.)	
Selenium (min.)	2.3 ppm	Protease (Bacillus Subtilis	0.7 Northrup Units/lb
Zinc (min.)	515 ppm	Fermentation Extract) (min.)	
Manganese (min.)	360 ppm		

### Ingredients

Wheat Middlings, Soybean Hulls, Dehydrated Alfalfa Meal, Distillers Dried Grains, Ground Limestone, Monocalcium Phosphate, Dicalcium Phosphate, Salt, Yeast Culture, Hydrolyzed Yeast, Hydrated Sodium Calcium Aluminosilicate, Dried Lactobacillus Acidophilus Fermentation Product, Dried Enterococcus Faecium Fermentation Product, Anise Seed, Fenugreek Seed, Dried Trichoderma Longibrachiatum Fermentation Extract, Dried Bacillus Subtilis Fermentation Extract, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Kelp Meal, Copper Amino Acid Complex, Lecithin, Magnesium Oxide, Iron Amino Acid Complex, Magnesium Proteinates, Selenium Yeast, Ferrous Sulfate, Zinc Sulfate, Manganese Sulfate, Calcium Carbonate, Copper Sulfate, Cobalt Sulfate, Ethylenediamine Dihydroiodide, Brewers Dried Yeast, Vitamin E Supplement, Ascorbic Acid (Source of Vitamin C), Niacin Supplement, Biotin, Vitamin A Supplement, Thiamine Mononitrate, Beta Carotene, Calcium Pantothenate, Riboflavin Supplement, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Vitamin D3 Supplement, Choline Chloride, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Folic Acid, Flaxseed, L-Lysine. (Free from Restricted Ruminant Protein Products per Title 21, CFR 589.2000/2001)

### Feeding Directions

Triple Crown Lite is designed to be a palatable feed for horses that will provide a desired intake level of supplemental minerals and vitamins without encouraging excessive weight gains. Triple Crown Lite should be fed to horses that have a tendency to become overweight or are receiving less than 4 pounds of grain per day. Triple Crown Lite should be fed in combination with hay and/or pasture, salt, and fresh, clean water. If your horse is being fed more than 5 pounds of grain daily in order to maintain desired body condition, Triple Crown Lite is not recommended. **MATURE HORSES:** Feed 1-2 pounds of Triple Crown Lite per 500 pounds of body weight per day. If more than 4 pounds of Triple Crown Lite is required to maintain the horse's desired body condition a switch to another Triple Crown formulation such as Low Starch may be necessary. **PONIES AND MINIATURE HORSES:** Feed 1 pound of Triple Crown Lite per 500 pounds of body weight and adjust feeding rate to maintain desired body condition.
