### Feeding Directions

Triple Crown Safe Starch Forage is an all in one diet for mature horses. No other hay, pasture, or mineral and vitamin supplement is required to provide your horse a complete and balanced diet. Feed Triple Crown Safe Starch Forage to mature horses at a rate that maintains desired body condition. Begin with approximately 2% of body weight (20 pounds for a 1000 pound horse) and adjust up or down, depending upon the individual horse's body condition. You want to feed a minimum of 1% of body weight. Provide access to salt and fresh, clean water at all times. NOTE: Provide plenty of fresh, clean water at all times. Keep product fresh in cool, dry storage. Examine product daily for mold or insect contamination. DO NOT use product that is old, molded or insect contaminated.
