

## Triple Crown Total Lifetime Care

### A pelleted diet for horses of any age.

A pelleted diet for horses of any age, from foals to senior horses, fortified to provide protein, essential amino acids, vitamins, macro minerals, trace minerals, bacteria and enzymes.

### Guaranteed Analysis

Net Wt. 50 LBS (22.7kg)

Crude Protein (min.)	12.50%	Copper (min.)	55 ppm
Lysine (min.)	0.65%	Vitamin A (min.)	5,750 IU/lb
Methionine (min.)	0.20%	Vitamin D (min.)	1,000 IU/lb
Threonine (min.)	0.35%	Vitamin E (min.)	165 IU/lb
Crude Fat (min.)	8.00%	Ascorbic Acid (min.)	40 mg/lb
Crude Fiber (max.)	18.00%	Biotin (min.)	0.25 mg/lb
Calcium (min.)	0.90%	Lactobacillus Acidophilus	908 million CFU/lb
Calcium (max.)	1.40%	Fermentation Product (min.)	
Phosphorus (min.)	0.60%	Saccharomyces Cerevisiae	1816 million CFU/lb
Magnesium (min.)	0.45%	Yeast Culture (min.)	
Iron (min.)	190 ppm	Cellulase (Trichoderma Longibrachiatum	170 CMC-ase Units/lb
Potassium (min.)	0.80%	Fermentation Extract (min.)	
Selenium (min.)	0.50 ppm	Protease (Bacillus Subtilis	0.7 Northrup Units/lb
Zinc (min.)	180 ppm	Fermentation Extract (min.)	
Manganese (min.)	115 ppm		

### Ingredients

Wheat Middlings, Soybean Hulls, Shredded Beet Pulp, Soybean Oil, Cane Molasses, Dehydrated Alfalfa Meal, Distillers Dried Grains, Ground Limestone, Flaxseed, Stabilized Rice Bran, Calcium Carbonate, Vitamin E Supplement, Salt, Lignin Sulfonate, Sodium Bicarbonate, Dicalcium Phosphate, Yeast Culture, Hydrolyzed Yeast, Hydrated Sodium Calcium Aluminosilicate, Dried Lactobacillus Acidophilus Fermentation Product, Dried Enterococcus Faecium Fermentation Product, Anise Seed, Fenugreek Seed, Dried Trichoderma Longibrachiatum Fermentation Extract, Dried Bacillus Subtilis Fermentation Extract, Zinc Amino Acid Complex, Manganese Amino Acid Complex, Kelp Meal, Copper Amino Acid Complex, Lecithin, Magnesium Oxide, Iron Amino Acid Complex, Magnesium Proteinates, Selenium Yeast, L-Lysine, Ascorbic Acid (Source of Vitamin C), Niacin Supplement, Biotin, Vitamin A Supplement, Thiamine Mononitrate, Beta Carotene, Calcium Pantothenate, Riboflavin Supplement, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Vitamin D3 Supplement, Choline Chloride, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Folic Acid, Sodium Aluminosilicate, Calcium Aluminosilicate, Manganese Sulfate, Brewers Dried Yeast, Ferrous Sulfate, Zinc Sulfate, Copper Sulfate, Cobalt Sulfate, Ethylenediamine Dihydroiodide, DL-methionine, (Propionic Acid, Sodium Benzoate, Potassium Sorbate (Preservatives)). (Free from Restricted Ruminant Protein Products per Title 21, CFR 589.2000/2001)

### Feeding Directions

Triple Crown Total Lifetime Care is designed to provide the proper nutrition for horses of all ages in order to simplify feeding for multiple ages of animals. Feed 5 lbs. to 6 lbs. per day for a mature 1000 lb. horse as a minimum to receive adequate intake of vitamins and minerals. Adjust amount fed up or down to maintain desired body condition. If feeding less than 5 lbs. per day, we recommend either changing to or supplementing the diet with 1lb. of Triple Crown 30% Supplement or Triple Crown Lite. For ponies, cut the amount in half. **FEEDING YOUNG HORSES:** Feed 1% of body weight to foals up to 400 lbs. For weanlings and older, the amount of Triple Crown Total Lifetime Care fed daily should be adjusted to maintain a moderate body condition. Start with 5 lbs. to 6lbs. per day divided into multiple feedings and then adjust up or down depending on the need for individual horse to maintain desired body condition. If feeding less than 5 lbs. per day supplement with 1 lb. of Triple Crown 30% Supplement to insure adequate vitamin and mineral intake. For ponies, cut amounts in half. **FEEDING SENIOR HORSES:** If horses can still eat hay and/or pasture, feed 5 lbs. to 6 lbs. per day for a mature 1000 lb. horse as a minimum to receive adequate intake of vitamins and minerals. Adjust amount fed up or down to maintain desired body condition. If feeding less than 5 lbs. per day, we recommend either changing to or supplementing the diet with 1 lb. of Triple Crown 30% Supplement or Triple Crown Lite. For ponies, cut amounts in half. For senior horses with damaged or worn teeth who can no longer or have trouble eating hay or pasture, Triple Crown Total Lifetime Care can be fed as the sole diet for your horse. Begin with approximately 12 lbs. to 15 lbs. per day and adjust up or down as needed to maintain desired body condition. Feeding these horses multiple times and off a bucket on the ground is preferable. Water may also be added to the feed to help soften for these horses with compromised teeth. For ponies, cut amounts in half.
