

Triple Crown Premium Chopped Alfalfa Forage Blend

A processed alfalfa and grass hay product for all classes of horses.

Now there's a way to get more out of poor or average quality equine hay. Simply replace all or part of your hay with Triple Crown Premium Chopped Alfalfa Forage Blend. Grown and manufactured with the highest standards. What makes our chopped forage product superior to most others? First, our hay is harvested at the precise, immature, pre-bloom stage of growth. Next, we chop and blend Alfalfa Hay, Timothy Hay, and Orchard Grass with computerized precision. Then we lightly mix in molasses and glycerin while removing any excess dust particles. The result is a highly digestible and consistent forage, ideal for any feeding need.

Guaranteed Analysis

Crude Protein (min.)	15.00%
Crude Fat (min.)	2.50%
Crude Fiber (max.)	30.00%

Ingredients

Sun Cured Alfalfa, Timothy Hay, Orchard Grass, Cane Molasses, Glycerin, (Propionic Acid, Sodium Benzoate, Potassium Sorbate (Preservatives)). Free from Restricted Ruminant Protein Products per Title 21, CFR 589.2000/2001)

Net Wt. 40 LBS (18.14 kg)

Feeding Directions

Triple Crown Premium forages should be fed at a minimum rate of 1% to 1.5% of body weight (10 lbs. to 15 lbs. on a 1000 lb. horse) per day if using as a complete hay replacement. Feed 4 lbs. to 6 lbs. per day if using as a supplement to normal long stem hay. Feed separately in a feed bin or bucket, or mix with your grain ration. Mixing may help reduce rapid consumption (bolting) and slow the digestive passage through the gut to maximize digestion.

NOTE: Provide plenty of fresh, clean water at all times. Keep product fresh in cool, dry storage. Examine product daily. DO NOT use product that is old, or contaminated with mold, insects or foreign material.
