

Triple Crown Golden Ground Flax (formerly Omega Max[®])

A golden flax supplement for horses

Triple Crown Golden Ground Flax is a 100% ground golden flax with a guaranteed shelf life of two years. It is widely accepted that Omega-3 fatty acids are necessary and beneficial to horses, especially those with limited access to green grass. Flaxseed has the highest level of Omega-3 fatty acids next to fish oil. Omega-3 fatty acid supplementation in horses improves immune function, hair and hoof condition and reduces inflammation in exercised horses and older horses. *Available in 25 lb. bags. If not available in your area, please call Triple Crown Nutrition at 800.451.9916 to place an order.*
