

LITE

PELLET

50 LBS
(22.7 KG)

NEW & IMPROVED!

TRIPLE CROWN
ALWAYS BEYOND
LITE
LOW CALORIE PELLET

IDEAL FOR:
Overweight horses, ponies, miniature horses, horses with metabolic disease

FEATURES:
Whole grain & molasses free, low starch & sugar, low feeding rate

HELPS SUPPORT:
Metabolic disease, allergies

NOW WITH

- More probiotics via CLOSTAT® to support a healthy microbiome
- Zinpro® Performance Minerals® with higher bioavailability
- No added iron

Triple Crown Lite is a whole grain and molasses free pellet ideal for easy keepers – horses that maintain their weight on very little grain or on grass and hay alone. It is also for miniature horses, horses with metabolic disease and those prone to founder and laminitis, and is designed to provide supplemental minerals and vitamins without encouraging excessive weight gain.

Cellulase ¹ (Trichoderma longibrachiatum) (min.)	3,287 CU/lb.
Protease ² (Bacillus licheniformis) (min.)	0.68 HUT/lb.

1. One cellulase unit (CU) is defined as the amount of activity that will produce a relative fluidity change of 1 (determined with a calibrated viscometer) in 5 minutes in a defined carboxymethylcellulose substrate at pH 4.5 and 40°C.

2. One hemoglobin unit (HUT) of proteolytic (protease) activity is defined as that amount of enzyme that produces, in one minute under the specified conditions, a hydrolysate whose absorbance at 275nm is the same as that of a solution containing 1.10g per mL of tyrosine in 0.006N hydrochloric acid. Estimated values determined by Equi-Analytical, Ithaca, NY.

INGREDIENTS

Soybean Hulls, Wheat Middlings, Dehydrated Alfalfa Meal, Maize Distillers Dried Grains with Solubles, Calcium Carbonate, Monocalcium Phosphate, Salt, Magnesium Oxide, Soybean Oil, Flaxseed, Lignin Sulfonate, Manganese Amino Acid Complex, L-Lysine, Selenium Yeast, Zinc Amino Acid Complex, N-Butyric Acid, Zinc Oxide, Peppermint Oil, Sodium Bicarbonate, Hydrated Sodium Calcium Aluminosilicate, Vitamin E Supplement, Copper Amino Acid Complex, Yeast Culture, Processed Grain By-Products, L-Threonine, DL-Methionine, Copper Sulfate, Dried Kelp, Yeast Extract, Dried Bacillus subtilis Fermentation Product, Active Dry Yeast, Ascorbic Acid, Vitamin B12 Supplement, Niacin Supplement, Fenugreek, Natural and Artificial Flavors, Biotin, Magnesium Proteinates, Dried Enterococcus faecium Fermentation Product, Dried Lactobacillus acidophilus Fermentation Product, Thiamine Mononitrate, L-Leucine, Vitamin A Supplement, β-Carotene, Pyridoxine Hydrochloride, Riboflavin Supplement, D-Calcium Pantothenate, Zinc Sulfate, Vitamin D3 Supplement, Choline Chloride, Ethylenediamine Dihydroiodide, Folic Acid, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Dried Trichoderma longibrachiatum Fermentation Product, Dried Bacillus licheniformis Fermentation Extract.

Contains a source of live (viable), naturally occurring microorganisms.

FEEDING DIRECTIONS

Triple Crown Lite is designed to be a palatable feed for horses that will provide a desired intake level of supplemental minerals and vitamins without encouraging excessive weight gain. It should be fed to horses that have a tendency to become overweight or are receiving less than 4 lb. of grain per day.

Horse Weight (lb.)	Lite (lb./day)	Minimum Forage (lb./day)
600	1-2.5	9-12
900	1.5-3	13.5-18
1,100	2-4	16.5-22
1,300	3.5-5	19.5-26

Feed in combination with hay and/or pasture, salt and fresh, clean water. If more than 5 lb. are needed to maintain desired body condition, switch to a Triple Crown performance or senior feed.

NOTE: Provide plenty of fresh, clean water at all times. Keep product fresh in cool, dry storage. Examine product daily. DO NOT use if old, moldy or contaminated with insects.

CAUTION: Follow label directions. In order to avoid excessive mineral and vitamin intake, DO NOT feed more than 5 lb. of Triple Crown Lite per day. Chronic intake of excess minerals and/or vitamins can adversely affect the health of your horse. Feeding added Selenium at levels in excess of 0.30 ppm in the total diet is prohibited. Triple Crown Lite does not exceed an intake of 3 mg of added Selenium per head per day when fed as directed. Product contains added Copper; do not feed to sheep.
