STRESSFREE®

FORTIFIED FORAGE SUPPLEMENT

A forage-based digestive supplement to reduce your worry and keep your horse eating.

RESEARCH INDICATES GASTRIC DISCOMFORT HAPPENS QUICKLY.

According to a study published in the Journal of the American Veterinary Medical Association, horses that were transported or confined to stalls in an unfamiliar facility with light exercise resulted in an increased incidence of gastric lesions within 5 days, compared to a control group.

- ✓ A highly palatable forage supplement that will help keep your horse eating
- ◆ Goes beyond with a slow release butyric acid to support normal health and function of the digestive tract
- ⚗ Prebiotics to improve the microbial population and aid with digestive balance
- 🍷 Flaxseed oil for Omega-3 fatty acids, and peppermint essential oil for palatability
- 🌿 Made with chopped alfalfa, which is high in calcium and may have natural buffering effects
- 👉 Feed 2-4 lb. per day; a little goes a long way

COMMON REASONS TO SUPPLEMENT STRESSFREE FORAGE TO KEEP A HORSE EATING:

- Trailing
- Performing
- Change in weather
